## ABOUT ME

I'm a full stack developer who loves creating websites that look great and work well. I'm really interested in developing the best user experience websites and always ready to work on exciting projects. I'm good at front-end design using HTML, CSS, JavaScript, React.js, and I also know how to connect the backend using Python and Django

## EDUCATION

M.SC PHYSICS  
Sri sankara arts and  
science college  
2021 - 2023

B.SC PHYSICS  
Sri krishna arts and  
science college  
2018- 2021

HSC & SSLC  
Anderson Higher  
secondary school  
2016- 2018

## SKILL

- React
- Django
- Python
- SQL
- JavaScript
- Html, Css Bootstrap

## PROJECT

### portfolio - using React.js

Developed a responsive personal portfolio using React.js to showcase projects, skills, and web development experience

### Movie Blog website - using Django & python

Developed a responsive Movie Blog website using Django and Python, where users can view and add movie details through a dynamic interface.

### Disney plus Hotstar - using Bootstrap, Javascript, Html, css,

Created Disney+ Hotstar clone using HTML, CSS, JavaScript, and Bootstrap, replicating the UI and core features of the streaming platform

### GoDaddy website - Javascript, Html, css

Built a GoDaddy website clone using HTML, CSS, and JavaScript with a responsive design optimized for desktop screens

### Future project - Using Django + React

Currently planning to develop a fully responsive Confidential Website with an intuitive user interface using React. The backend will be built with Django to ensure secure data handling and powerful functionality

## TECHNICAL SKILLS

- Logical Thinking
- Git-Github
- Problem-solving
- Data structures
